Distinctive homes in prime locations

Southbank Homes Limited is purely family owned. This gives our property developments the edge, with hands-on attention to detail and quality craftsmanship throughout.

Established in 1962 and based in the UK, the company's first commercial office developments came about in the early 1960's, located on the South Bank of the River Thames in London. Since the mid 1970's, Southbank Homes has concentrated on luxury residential developments across the South East and its Coast, from contemporary high specification penthouses, apartments and mews houses to traditionally built family homes.
